EDUCATION

Bachelor's in Information Technology

Tribhuban University
Bhaktapur Multiple Campus | 2024-Present

+2 in Science

Triton SS and College | 2021-2023

ABOUT ME

I am Motivated and creative BIT student with strong foundational skills in C, HTML, and JavaScript. Led the development of the Hikemandu Website as the project head and creative designer. Passionate about building user-friendly web experiences and continuously learning new technologies to solve real-world problems. I enjoy turning ideas into interactive, accessible, and visually appealing digital solutions.

EXPERIENCE

Project Lead & Frontend Developer
Hikemandu Project – Personal/Academic
2024 – Present

Led the development of a multilingual trekking website with features like chatbot, feedback system, and Google Sheets integration. Focused on responsive design, smooth UI/UX, and JavaScript-powered interactivity as both project lead and creative designer.

Tech Support & Content Manager
College Event Website
2024
Supported content updates and troubleshooting for college event websites. Helped manage registrations and ensured the site remained functional during high-traffic periods.

Freelance Web Developer
Remote | Self-Employed
2023 – Present
Built personal and academic websites with clean, user-friendly designs & interactive features. Focused on performance, accessibility and responsive layouts across devices. Managed end-to-end development independently using Git and followed best practices for code quality and UI/UX.
